Safety tips, riding tips, and more!

### Hot Weather Riding Tips

Riding a motorcycle in hot weather requires some key steps. Stay hydrated by drinking fluids and avoiding alcohol, which can dehydrate you. Wear moisture-wicking layers and protective gear like gloves and boots to manage heat and sun exposure. Take regular breaks in the shade to stretch and rehydrate. Plan your ride to start early when it's cooler and seek shade during peak sun hours. Following these tips can help make your ride safe and enjoyable despite the heat.
