This year, we ride in memory of Ashley Austin, who lost her life to an impaired driver on December 19th, 2023. Ashley will be forever remembered as a beloved agriculture education teacher at Canton-Galva High School. Growing up on a farm fostered her passion for agriculture, leading her to start the first FFA program for USD 419. Her dedication to her students will have long-lasting effects on the present and future generations. Ashley is greatly loved and deeply missed by her family, friends, students, and her dog Rowan.

Safety tips, riding tips, and more!

### Motorcycle Wind Chill

Riding in cold weather increases wind chill, making it feel much colder as speed increases. This raises the risk of frostbite and hypothermia, so it's important to wear windproof gear, keep dry, protect extremities, and reduce exposure by minimizing your profile. To stay safe, recognize early signs of frostbite or hypothermia, and take steps to warm up if needed. Proper preparation ensures a safer, more comfortable ride in colder conditions.
